PhD Position in Molecular and Developmental Genetics

A four-year PhD position is available starting in 2012 at the IBMB-CSIC (Parc Científic de Barcelona) under the supervision of Dr. G. Jiménez. This position is part of a research project to investigate the function of Ras/MAPK signalling pathways and transcriptional repression mechanisms in *Drosophila* development. Further details can be found at the following addresses:

<http://www.ibmb.csic.es/home/gjimenez>

<http://www.icrea.cat/Web/ScientificForm.aspx?key=307>

We are seeking a highly motivated candidate with a genuine interest in molecular biology and genetics, who has recently completed a degree in Biology or a related area. Applications and enquiries should be addressed to:

Dr. Gerardo Jiménez

e-mail: gjcbmc@ibmb.csic.es phone: 34-934034970
