

# Strategic Policy on Quality, Safety and the Environment of the Barcelona Science Park

Barcelona Science Park Management is committed to quality, safety and the protection of the environment. It supports the principles of social responsibility and sustainable development as well as working in accordance with the principles of good scientific practice.

The Park seeks to contribute to the economic, social and environmental development of society by incorporating into its management actions that address the world's challenges, which are currently embodied in the Sustainable Development Goals (SDGs) defined by the United Nations in its Agenda 2030 to move towards a fairer, more inclusive and prosperous society that respects environmental limits.

Our action policy is based on:

- ◆ **Promoting ongoing improvement within the integrated management system and striving for efficiency in the organisation's management.**
- ◆ **Commitment to compliance with legal requirements, regulations and reference standards in quality, environment, occupational health and safety**, as well as other agreed requirements related to the integrated management system.
- ◆ **Proper focus on activities** in line with the needs of the organisation and the requirements of customers.
- ◆ **Prevention culture encouragement** in all work activities as a mechanism to control and reduce risks that may affect people's health and safety.
- ◆ **Social responsibility** in all its relations with people, collaborators, customers, suppliers and society in general.
- ◆ **Commitment to the planet and respect for the environment**, promoting the responsible and efficient consumption of resources and favouring the minimisation of resources.
- ◆ **Promoting socially responsible practices** that defend equal opportunities between women and men and value the richness of diversity.
- ◆ **Encouraging the implementation of the best ethical and scientific practices** in any field, especially in activities related to laboratory animals.
